Pain Management

Why Summit Pain Management?

Pain can be a source of constant worry and it can also keep you from the things you want and need to do in life. It can keep you from playing your favorite sports, being productive at work-or away from enjoying life altogether. When individual treatments fail, comprehensive pain management is your best option. For specialized care that can reduce your pain and get you back to living again look to Summit Pain Management. Here you'll discover compassionate care with state of the art treatments that you won't find anywhere else in the Salt Lake Valley.

The medical staff at Summit Pain Management works closely with orthopedists, orthopedic surgeons, neurologists, neurosurgeons, psychologists, and physical and occupational therapists to provide patients with the best possible care. The physicians at Summit Pain Management are fellowship trained pain management specialists who are board certified in anesthesiology and in pain medicine by the American Board of Anesthesiology.
